

# The Ministry of Healing

Many churches have a healing ministry. When someone is sick or hurt, the church prays for them, helps comfort them, and finds out if there are other ways to help heal them. If you don't know the answers to these questions, ask someone in your family or a pastor about what your church does to help those who are hurting.

The name of my church: \_\_\_\_\_

Does my church say the names of sick people during the prayers each week? Yes  No

Does my church have a visitation pastor? Yes  No

(Psst! A visitation pastor is a pastor who focuses on helping people who are sick, hurt, or cannot leave their homes very much. Visitation pastors visit people in the hospital, nursing homes, or their own homes.)

Does my church have a quiet place where people can pray? Yes  No

What are two ways you can help someone who is healing? Write them here.
